The Multi-Purpose Digital Scale is a precision solution. Whether it's small pets, food, medicines model 6701 by Redmon is the right solution.

As a serious breeder, or the concerned pet owner, it is important to understand how critical weight is indicative of health and well-being. Successful owner/breeders never ignore fluctuations and trends in an animal's weight. The accurate scale (+/- 0.5g) comes with a sturdy wood dowel and plexi plate triangular perch (3 different sized dowels for various sized birds). The perch easily lifts off of the platform so the scale can be used for any small animal or to measure food, medicine, etc.

Dowel Diameters – 3 sizes for various size birds
